

Table of contents	CONTENTS	Pages
ACKNOWLEDGEMENTS		i - ii
TABLE OF CONTENTS		iii - viii
ABBREVIATIONS		ix - xii
LIST OF TABLES		xiii - xv
LIST OF FIGURES		xvi - xvii
ABSTRACT		1 - 2
CHAPTER 1		
Introduction and Literature review		3 - 38
1.1 Coronary blood flow and genesis of ECG abnormalities		4
1.2 Coronary circulation.....		4 - 7
1.3 Electrical activity of the heart.....		7 - 13
1.3.1 Electrical events in the heart.....		7 - 8
1.3.2 Electrophysiology of ECG.....		9 - 10
1.3.3 ECG changes in acute coronary syndrome.....		10 - 12
1.3.4 Localizing the infarct related artery by ECG.....		13
1.3.5 Assessment of extent of myocardial damage using ECG		13
1.4 Coronary artery disease.....		13 - 17
1.4.1 Pathophysiology of atherosclerosis.....		14 - 15
1.4.2 Pathophysiology of acute coronary syndrome.....		15 - 16
1.4.3 Risk factors of atherosclerosis.....		16 - 17
1.5 Diagnosis of coronary artery disease and acute coronary syndrome.....		17 - 19
1.5.1 Diagnosis of coronary artery disease.....		17
1.5.2 Angiographic severity scores.....		17 - 18
1.5.3 Clinical evaluation of acute coronary syndrome.....		18
1.5.4 Risk stratification in acute coronary syndrome		18 - 19

1.6	Testosterone	19 - 30
	1.6.1 Androgen biosynthesis and metabolism in men.....	19 - 20
	1.6.2 Factors that can affect testosterone concentration.....	20 - 21
	1.6.3 Measurement of testosterone.....	21 - 22
	1.6.4 Metabolic activation and mechanism of action.....	22
	1.6.5 Regulation of testosterone secretion.....	23
	1.6.6 Age related changes in testosterone.....	23
	1.6.7 Hypogonadism.....	23 - 24
	1.6.8 Androgen and atherosclerosis.....	24 - 28
	1.6.9 Proposed mechanism of actions of testosterone on cardiovascular disease.....	29
	1.6.10 Effect of exogenous androgen treatment.....	29 - 30
1.7	High sensitivity C-reactive protein.....	31 - 33
	1.7.1 Synthesis, functions and factors that can affect hs-CRP concentration.....	31
	1.7.2 Coronary artery disease and hs-CRP.....	31 - 32
	1.7.3 Risk stratification of cardiovascular disease and hs-CRP.....	32
	1.7.4 Acute coronary syndrome and hs-CRP.....	32 - 33
	1.7.5 Severity of coronary artery disease and hs-CRP.....	33
1.8	Cardiac troponin I.....	33 - 35
	1.8.1 Cardiac troponin I and myocardial injury.....	33 - 34
	1.8.2 Risk stratification, infarct size and cTnI.....	34 - 35

1.9	Background of the study.....	35 - 37
1.10	Rationale and objectives of the study.....	37 - 38
	1.10.1 Rationale of the study.....	37
	1.10.2 Objectives.....	38
	1.10.2.1 Broad objective.....	38
	1.10.2.2 Specific objectives.....	38
CHAPTER 2		
	Materials and Methods.....	39 - 73
2.1	Study design.....	40
2.2	Study setting.....	40
2.3	Sample size calculation sampling method.....	40 - 41
2.4	Study subject selection.....	41 - 42
2.5	Data and sample collection.....	43 - 47
	2.5.1 Ethical consideration.....	43
	2.5.2 Data collection.....	43 - 45
	2.5.2.1 Data and sample collection in Group 1 (STEMI patients)	43 - 44
	2.5.2.2 Data and sample collection in Group 2 (angiographically-proven coronary artery disease patients).....	44 - 45
	2.5.2.3 Data and sample collection in Group 3 (controls)	45
	2.5.3 Measurement of anthropometric parameters.....	45 - 46
	2.5.4 Measurement of blood pressure.....	46
	2.5.5 Socioeconomic categorization.....	47

2.6	Blood sample processing and biochemical investigations.....	48 - 62
	2.6.1 Plasma glucose assay.....	48 - 49
	2.6.2 Serum lipid assays.....	50 - 55
	2.6.2.1 Serum total cholesterol assay.....	50 - 51
	2.6.2.2. Serum HDL- Cholesterol assay.....	51 - 53
	2.6.2.3 Serum triglycerides assay.....	53 - 55
	2.6.2.4 Determination of LDL- Cholesterol.....	55
	2.6.3 Serum total testosterone assays.....	55 - 59
	2.6.3.1 Testosterone RIA assay (IMMUNOTECH)	56 - 57
	2.6.3.2 Testosterone EIA assay (PATHOZYME)	57 - 59
	2.6.4 Serum cardiac troponin I assay (IMMULITE 1000)	59 - 60
	2.6.5 Serum high sensitivity C-reactive protein assay.....	60 - 62
2.7	Risk stratification in STEMI patients with clinical risk scores...	62 - 64
	2.7.1 Killip class classification.....	62
	2.7.2 Calculation of TIMI Score.....	62 - 63
	2.7.3 Calculation of GRACE score.....	63 - 64
2.8	Electrocardiographic score.....	65 - 67
	2.8.1 Recording of ECG variables.....	65
	2.8.2 Electrocardiogram QRS scoring.....	65 - 67
2.9	Coronary angiographic scores.....	67 - 73
	2.9.1 Gensini score.....	67 - 69
	2.9.2 Leaman score.....	69 - 70
	2.9.3 Vessel score.....	71
2.10	Statistical analysis.....	72 - 73

CHAPTER 3**Preliminary study to determine the optimum point of time to sample blood for testosterone and CRP in acute coronary syndrome..... 74 - 81**

3.1	Introduction.....	75
3.2	Materials and methods.....	76 - 77
3.3	Results.....	77 - 78
3.4	Discussion.....	78 - 81
3.5	Conclusions.....	81

CHAPTER 4**Association of testosterone and CRP with severity of angiographically-proven coronary artery disease..... 82 - 108**

4.1	Introduction.....	83
4.2	Materials and methods.....	83
4.3	Results.....	84 - 104
4.4	Discussion.....	104 - 108

CHAPTER 5**Association of testosterone and CRP with severity of ST-elevation myocardial infarction..... 109 - 139**

5.1	Introduction.....	110
5.2	Materials and methods.....	110
5.3	Results.....	111 - 133
5.4	Discussion.....	134 - 139

CHAPTER 6**Comparison between ST-elevation myocardial infarction patients and angiographically-proven coronary artery disease patients..... 140 - 154**

6.1	Introduction.....	141
6.2	Materials and methods.....	141
6.3	Results.....	142 - 151
6.4	Discussion.....	151 - 154

CHAPTER 7

Discussion, Conclusions & Recommendations	155 -173
7.1 Discussion.....	156 - 171
7.2 Conclusions.....	172
7.3 Recommendations.....	173
REFERENCES.....	174 - 203
ANNEX - I.....	204
Ethical clearance letter	
ANNEX - II	205 - 209
Consent form	
ANNEX - III.....	210 - 226
Data collection questionnaire	
Full paper publications.....	227 - 228
Presentations at conferences.....	228 - 229
