Chapter contents	
<b>CHAPTER 1</b>	1-33
<b>1 Introduction</b>	1
1.1. Defining malaria	1-2
1.2. Malaria parasite	3-5
1.2.1. Malaria parasite life cycle	5-6
1.2.2. Malaria symptoms	6-7
1.3 Relationship malaria to other diseases	7-12
1.4. Distribution of malaria in global respect	12-15
1.5. Distribution of malaria in Sri Lanka	15-26
1.6. Milestone of malaria control in Sri Lanka	27-31
1.7. Concept of diseases in medical geography	31-32

## **CHAPTER TWO**

<b>Objectives of the Study and Research Methodology</b>	33-51
2.1 Introduction	33-34
2.2 Background	34
2.3 Statement of the problem	35
2.4 Aim of the study	35-38
2.5 Research methodology	39-41
2.6 Pilot survey	41
2.6.1 Household Survey	41-42
2.6.2 Survey of observed human behaviours	42
2.6.3 The questionnaire survey	42-43
2.7 Schedule of the study	43-46
2.8 Survey on malaria patients	46
2.8.1 Questionnaire	46
2.9 Formal and informal observations	46-47
2.10 Secondary data	47-48
2.11 Methods of the analysis and presentation	48-49
2.12 Limitations of the research	49
2.13 Importance of the research	49-50
2.14 Outline of the chapters	50-51

## **CHAPTER THREE**

<b>3 Geographical perspectives of malaria</b>	<b>52-93</b>
3.1 Introduction	52
3.2 Studies on geography of malaria	52-59
3.3 The importance of influence of natural and human environmental factors	59-60
3.4 Geographical background of Sri Lanka	61-63
3.4.1 Monsoon climate features	63-65
3.4.2 Temperature	65-66
3.4.3 Rainfall	67-75
3.4.4 Vegetation	75-76
3.4.5 Hydrology	77-79
3.4.6 Soils	80-81
3.5 Human environmental factors	82
3.5.1 Agricultural pattern	82-83
3.5.2 Migration	83-85
3.5.3 Spreading of Irrigation canals, clay pits, gem pits, brick kilns with new settlements	85-88
3.5.4 Living and condition behaviours	88
3.5.4.1 Awareness of mosquito breeding places	89
3.5.4.2 Peoples' perception on malaria	89
3.5.4.3 Mosquito repellent methods	89-90
3.5.4.4 Manner of malaria transmission	90

3.5.4.5 Access to services	90-91
3.5.4.6 Effects of life cycle of a mosquito on habitats of the peoples	91
3.5.4.7 Identifying of nature of malaria	91-92
3.6 Conclusions	92-93

## **CHAPTER FOUR**

### **Physical and socio-economic background of the Anuradhapura**

<b>district</b>	<b>94-133</b>
4.1. Introduction	94
4.2. Location and size	94-95
4.3. Physical features	96
4.4. Soils	97-98
4.5 Rainfall	98-99
4.5.1 Seasonal rainfall	100-
4.5.2. Monthly rainfall distribution	101-103
4.5.3 Rainy days	104-105
4.6 Temperature	106
4.5.1 Mean annual temperature	107
<b>PART II Human environmental factors</b>	<b>108-134</b>
4.7. Historical background of the Anuradhapura district	108-111
4.8. Land-use pattern	111-112
4.9. Social and economic condition	113-114

4.10. Population growth	114-115
4.10.1. Population density and gender	116-118
4.10.2. Population composition	119
4.10.3. Ethnic composition	119-120
4.11 Education background	120-121
4.15. Health facilities	122-125
4.16. Agricultural pattern	125-126
4.17. Tanks and reservoirs	127-128
4.18. Fisheries activities	129-131
4.19. Income level	131-133
Conclusion	133-134

## **CHAPTER FIVE**

<b>Spatial and temporal patterns of malaria in the Anuradhapura district</b>	<b>135-188</b>
5.1. Introduction	135
5.2. Occurrence of malaria in the MOH areas in the Anuradhapura district	135-139
5.3. Spatial patterns of malaria in API Values in MOH areas	139-144
5.4 The spatial patterns of malaria related to gender	144-146
5.5 Intra-monthly patterns malaria occurrence by MOH areas	146-165
5.6. Intra-monthly patterns of malaria in the Anuradhapura district 2001-2005	165-170
5.7 The pattern of occurrence of malaria age-wise in the district	170-172
5.8 Intra-annual patterns of malaria occurrence in the long term	172-172
5.9 Seasonal distribution of malaria in the Anuradhapura district	173-177

5.10 Seasonal distribution of occurrence of malaria by MOH areas	177-179
5.11 Occurrence of malaria related to four climatic seasons	179-182
5.12 Decreasing pattern of malaria during 2001-2005	182-184
5.13 Temporal pattern of parasite distribution in the Anuradhapura district	184-187
Conclusions	187-188

## **CHAPTER SIX**

### **Effect of natural environmental factors on temporal and spatial distribution**

<b>of malaria</b>	<b>189-218</b>
6.1 Introduction	189-190
6.2. Relationship between annual rainfall and occurrence of malaria	190-192
6.3. Relationship between monthly rainfall and occurrence of malaria	193-197
6.4. Relationship between Maha and Yala seasonal rainfall and occurrence of malaria	198-200
6.5 Relationship between mean annual temperature and occurrence of malaria	201-204
6.6. Relationship between monthly temperature and occurrence of malaria	204-209
6.7. Effects of the nature of the terrain on the occurrence of malaria	209-213
6.8. Relationship between distance of vegetation cover to settlements and occurrence of malaria	213-217
Conclusions	217-218

## **CHAPTER SEVEN**

### **Effect of human environmental factors on temporal and spatial distribution of 219-249**

#### **malaria**

7.1 Introduction	219-220
7.2 Relationship between gender and the occurrence of malaria	220--222
7.3 Housing conditions and the occurrence of malaria	222-226
7.4 Relationship between income of the patients and occurrence of malaria	227-229
7.5 Relationship between standard of education and the occurrence of malaria	230-231
7.6 Distribution of malaria with regard to seasonal agricultural practices	231-236
7.7 Applying malaria repellent methods	236-240
7.8 Relationship between distance of tanks and irrigation canals to settlements and incidence of malaria	240-242
7.9 Human migration and distribution of malaria	242-246
7.10 Relationship between human life style and spreading of malaria	246-248
Conclusions	248-249

## **CHAPTER EIGHT**

8.1 Conclusions and Recommendations	250-263
8.2 Summary and conclusions	250-259
8.3 Recommendations	259-263
Appendix 1	264-271
References	272-285

## ***LIST OF TABLES***

1.1 Current diseases in the world 2004 (WHO) Health Report	8
1.2 Scope and indicating of tropical diseases 2004 (WHO) Health Report	9
1.3 Reported parasite diseases in 2003 the Health Report (WIHO)	11
1.4 Malaria affected regions in the world 2004	14
1.5 Malaria morbidity and mortality in Sri Lanka 1910-2005 (AMC)	16
1.6 Number of malaria cases and their percentage by provinces in Sri Lanka 2004 and 2005	18
1.7 Malaria distribution in Sri Lanka Cater (1927)	19
1.8 The most seriously affected districts in Sri Lanka-2005	21
1.9 The most seriously affected districts in Sri Lanka, 1991-2005	23
1.10 The spatial pattern of malaria in Sri Lanka by districts, 1999 and 2005	24
1.11 Reported number of malaria cases, according to districts, 1991-2005	25
1.12 Rank of malaria by districts	25
2.1 Malaria morbidity and mortality in Sri Lanka 1910-2005	37
2.2 Phases tabulated	44
3.1 Migration by the district 1980	84
3.2 Distribution of irrigated areas in Sri Lanka by districts and provinces	86
3.3 Various name used to identified malaria	92
4.1 Inter-annual rainfall distribution in the Anuradhapura district 1976-2000	99
4.2 Distribution of rainfall during the Yala and Maha seasons in the district	100

4.3 Distribution of seasonal rainfall in the Anuradhapura district from 1976-2005	101
4.4 Monthly rainfall distribution in the district, 1976-2005	103
4.5 Number in the rainy days in the Anuradhapura district 1976-2005	105
4.6 Fluctuation in the monthly temperature pattern in the district 1976-2005	106
4.7 Average annual temperature in the Anuradhapura district from 1976-2005	107
4.8 Land use pattern in the Anuradhapura district 2002	111
4.9 Average annual growth rate of population in the Anuradhapura district, 1871-2001	115
4.10 The population density gender-wise in DSD of Anuradhapura district 2001	118
4.11 Age structure of the population in the Anuradhapura district, 1981-2001	119
4.12 The ethnic composition of the population of the Anuradhapura district, 2001	120
4.13 The literacy rate of the population by sex in the district	121
4.14 Hospitals and health centres in the district, 2003	126
4.15 Cultivated land areas in the Anuradhapura district, 2001	126
4.16 The capacity and location of main tanks in the Anuradhapura district, 2002	128
4.17 Fisheries industry in the Anuradhapura district 1999-2004	130
4.18 Samurdhi beneficiary families in the district 2004	132
5.1 Number of malaria cases by MOH areas in the Anuradhapura district, 2005	136

5.2 Classification of malaria areas related to MOH areas in the Anuradhapura district, 2005	138
5.3 Spatial pattern of malaria cases in MOH areas in the Anuradhapura district, 2001-2005	141
5.4 Monthly distribution of malaria cases in MOH areas in the Anuradhapura district, 2001	147
5.5 Monthly distribution of malaria cases in MOH areas in the Anuradhapura district, 2002	150
5.6 Monthly distribution of malaria cases in MOH areas in the Anuradhapura district, 2003	154
5.7 Monthly distribution of malaria cases in MOH areas in the Anuradhapura district, 2004	158
5.8 Monthly distribution of malaria cases in MOH areas in the Anuradhapura district, 2005	162
5.9 Intra monthly pattern occurrence of malaria in the Anuradhapura district, 2001-2005	165
5.10 Surrounding any water pooling areas in the district	169
5.11 Intra monthly pattern occurrence of malaria % in the Anuradhapura district, 2001-2005	170
5.12 Distribution of malaria age-wise 2005	171
5.13 Annual occurrence of malaria cases in the Anuradhapura district, 1972-2005	173
5.14 The malaria season of the Anuradhapura district, 2001-2005	174

5.15 Occurrence of malaria concerning major agricultural season in the Anuradhapura district 2001-2005	176
5.16 Seasonal variations of recorded malaria cases by MOH areas in the Anuradhapura district, 2005	178
5.17 Seasonal percentage rainfall 2001-2005 in the Anuradhapura district	179
5.18 Temporal distribution of malaria cases with regard to four climatic seasons in MOH areas in the Anuradhapura district, 2005	181
5.19 Distribution of malaria cases in MOH areas in the Anuradhapura district, 2001-2005	184
5.20 Temporal distribution of malaria parasites in the Anuradhapura district, 2005	187
6.1 Annual total rainfall and number of malaria cases 1976-2005 in the Anuradhapura district	191
6.2 Monthly total rainfall and number of malaria cases in the Anuradhapura district, 2005	194
6.3 Relationship between monthly rainfall and total number of malaria cases in the Anuradhapura district, 2001-2005	198
6.4 Mean annual temperature, annual total rainfall and number of malaria cases in the Anuradhapura district, 1976-2005	202

6.5 Mean monthly temperature and number of malaria cases in the Anuradhapura district 2001-2005	205
6.6 Distance from settlement to nearest water bodies and related malaria in the Anuradhapura district, 2005	209
6.7 Relationship between distances from house to nearest vegetation covers and malaria cases in the Anuradhapura district, 2005	214
7.1 Relationship between age, gender, and malaria in the Anuradhapura district, 2006	221
7.2 Relationship between housing conditions and number of malaria cases in the Anuradhapura district, 2006	223
7.3 Sizes of the malaria victimized families in the Anuradhapura district, 2006	226
7.4 Income level of malaria victimized families in the Anuradhapura district	229
7.5 Standard of education of malaria victimized persons in Anuradhapura district, 2006	231
7.6 Recorded malaria cases during the period of Yala and Maha seasons 2001-2005	235
7.7 Application of repellent methods in the Anuradhapura district, 2006	237
7.8 Number of malaria cases and use of mosquito nets in the Anuradhapura district	239

7.9 Distance of water bodies to nearest settlements and occurrences of malaria in the Anuradhapura district, 2006	242
7.10 Movement of malaria affected persons in the Anuradhapura district, 2006	243

### ***LIST OF FIGURES***

1.1 Distribution of malaria parasites, 2004	4
1.2 Malaria parasites life cycles	5
1.3 Malaria risk areas in the world, 2004	13
1.4 Fluctuation of malaria morbidity and mortality cases of malaria in Sri Lanka 1910-2005	17
1.5 Number of malaria cases by provinces in Sri Lanka, 2004 and 2005	19
1.6 General distribution of malaria in Ceylon 1921-1922 (Cater 1927)	20
1.7 The most seriously affected districts of malaria in Sri Lanka, 2005	22
1.8 The most seriously affected districts of malaria in Sri Lanka 1999 and 2005	23
1.9 Distribution of malaria by district in 1999 and 2005 Sri Lanka	26
2.1 Location of Sri Lanka	33
2.2 Malaria morbidity and mortality in Sri Lanka 1911-2005 and Anuradhapura district 1972-2005	38
2.3 Research methodology	39-40
3.1 Distribution of malaria in Ceylon 1935	60
3.2 Geomorphological region in Ceylon	62
3.3 Annual average temperature in Sri Lanka	66

3.4 Divisions of Sri Lanka into the Wet Zone and Dry Zone	68
3.5 Mean annual rainfall in Sri Lanka	70
3.6 The distribution of rainfall during the periods 1930- 1960 Maha and Yala in Sri Lanka	74
3.7 The distribution of chena cultivation areas in Sri Lanka	77
3.8 Rivers and reservoirs of Sri Lanka	78
3.9 Soil types in Sri Lanka	80
3.10 Major irrigation schemes in Sri Lanka	87
4.1 Divisional Secretariat Divisions in the Anuradhapura district	95
4.2 Physical features of the district	97
4.3 Inter annual rainfall distribution in 1976-2005	99
4.4 Distribution of rainfall during the Yala and Maha season in the district 1976-2005	101
4.5 Distribution of seasonal rainfall from 1976-2005 in the Anuradhapura district	102
4.6 Distribution of monthly rainfall distribution Anuradhapura district, 1976-2005	103-104
4.7 Annual fluctuation of rainy days in the Anuradhapura district 1976-2005	105
4.8 Fluctuation of monthly temperature in the Anuradhapura district 1976-2005	106
4.9 Fluctuation of annual temperature in the Anuradhapura district 1976-2005	107
4.10 Land use pattern in the Anuradhapura district, 2002	112
4.11 The growth of population in the Anuradhapura district in 1871-2001	115
4.12 The ethnic composition of the population in the Anuradhapura district, 2001	120
4.13 The literacy rate of the population by sex in the Anuradhapura district	121

4.14	Locations of the health institutions of the Anuradhapura district	124
4.15	Cultivated lands in the Anuradhapura district, 2001	126
4.16	Distribution of large and small tanks in the Anuradhapura district	129
4.17	Fisheries industries in the Anuradhapura district	131
5.1	MOH areas in the Anuradhapura district	137
5.2	Occurrence of malaria in the MOH areas in 2005 in the Anuradhapura district for risk assessment	139
5.3	Spatial pattern of malaria in the MOH areas in the Anuradhapura district 2001-2005	142-144
5.4	Monthly distribution of malaria cases by MOH divisions in the Anuradhapura district 2001	148-149
5.5	Monthly distribution of malaria cases by MOH divisions in the Anuradhapura district, 2002	151-153
5.6	Monthly distribution of malaria cases by MOH divisions in the Anuradhapura district, 2003	155-157
5.7	Monthly distribution of malaria cases by MOH divisions in the Anuradhapura district, 2004	159-161
5.8	Monthly distribution of malaria cases by MOH divisions in the Anuradhapura district, 2005	163-164
5.9	Intra-annual pattern occurrence of malaria in the	

Anuradhapura district 2001-2005	166
5.10 Monthly distribution of malaria cases in the Anuradhapura district, 2001	167-168
5.11 Monthly distribution of malaria cases in the Anuradhapura district, 2002	167
5.12 Monthly distribution of malaria cases in the Anuradhapura district, 2003	168
5.13 Monthly distribution of malaria cases in the Anuradhapura district, 2004	168
5.14 Monthly distribution of malaria cases in the Anuradhapura district, 2005	168
5.15 Distribution of malaria by age-wise in the Anuradhapura district, 2005	170
5.16 The fluctuation in the long term malaria cases during 1972-2005 in the Anuradhapura district	172
5.17 Seasonal pattern of malaria in the Anuradhapura district, 2001-200	175
5.18 Occurrence of malaria in major agricultural season in the district 2001-2005	176
6.1 Relationships between mean annual temperature and number of malaria cases in the Anuradhapura district 1976-2005	192
6.2 Correlation between annual rainfall and annual total number of malaria cases	193
6.3 The regression relationship between monthly rainfall and total number of malaria cases in the Anuradhapura district 2001-2005	196-197
6.4 Relationship between Maha (October to March and Yala (April to September) malaria cases in the Anuradhapura district 1976-2005	199
6.5 Correlation between Maha (October to March) and Yala	

(April to September malaria cases in the Anuradhapura district 1976-2005	200
6.6 Correlations between in annual temperature and number malaria cases in the Anuradhapura district 2001-2005	203
6.7 Correlation between annual temperature and annual total number of malaria cases in the Anuradhapura district, 2001-2005	204
6.8 The regression relationship between monthly temperature and monthly malaria cases in the Anuradhapura district, 2001-2005	206-207
6.9 Distribution of tanks in the Anuradhapura district	217
7.1 Relationship between age, gender and malaria in the Anuradhapura district, 2005	222
7.2 Housing conditions related to occurrence of malaria	224
7.3 The income distribution of malaria victimized families in the Anuradhapura district, 2006	228
7.4 Malaria victimized families with the monthly income more than Rs 3000,	228
7.5 Standard of education of malaria-victimized persons in the Anuradhapura district,	231
7.6 Distribution of active and bandoned tanks in the Anuradhapura District	233
7.7 Number of malaria cases during the Maha season and the Yala season in the Anuradhapura district 2001-2005	236
7.8 Applying repellent methods in the Anuradhapura district, 2006	237
7.8 spatial distribution of the usageof mosquito nets and number of malaria cases in the	

Anuradhapura district, 2006

240

7.10 Movement of number of malaria affected persons in the

Anuradhapura district, 2006

245
