Abstract x-xi
Abbreviations xii

1. Introduction
2. Literature Review
  2.1 Oogenesis
    2.1.1 Maturation of oocytes before birth
    2.1.2 Maturation of oocytes at puberty
  2.2 Folliculogenesis and oocyte maturation
  2.3 Reproductive hormones in the female
  2.4 Accessory cells and tissues of the oocyte
  2.5 Ovulation
    2.5.1 Polar bodies
  2.6 Spermatogenesis
  2.7 Sperm transport

2.19 The effects of freezing and thawing on oocytes, zona, sperm entry, phases of fertilization and early embryo development

2.20 Superovulation and oocyte recovery in mice

2.21 Oocyte assessment

3. Objective

4 Materials and Methods

4.1.1 Mice used for experiments

4.1.2 Locally designed 5% Carbon dioxide modular incubator

4.1.3 Super ovulation

4.1.4 Freezing method

4.1.4.1 The newly developed manual freezing technique

4.1.5 Thawing method

4.1.6 Sperm preparation

4.1.7 Insemination

4.1.8 Evaluation of cryosurvival after thawing and insemination

4.1.9 Assessment of fertilization

4.1.10 General Description of experiments

4.2 Experiments 1-4

The effects of varying concentrations of sucrose with 3.5 M DMSO in M2 medium

4.3 Experiments 5-8

The effects of varying concentrations of sucrose with 1.5 M DMSO in M2 Medium

4.4 Experiments 9-12

The effects of 43% of varying concentrations of sucrose with 57% of 1.5 M DMSO in M2 medium
4.5 Experiments 13-16
The effects of 14% of varying concentrations of sucrose with 28.5% of 1.5 M DMSO, 28.5% of 1.5M EG & 28.5% of 1.5M Glycerol in M2 medium

4.6 Experiments 17 -20
The effects of 0.05 M sucrose with varying concentrations of DMSO in M2 medium

4.7 Experiments 21-24
The effects of 43% of varying concentrations of sucrose with 57% of 1.5 M glycerol in M2 medium

4.8 Experiments 25-28
The effects of 0.2M sucrose with different concentrations of glycerol in M2 medium

4.9 Experiments 29-32
The effects of 43% of varying concentrations of sucrose with 57% of 1.5M EG in M2 medium

4.10 Experiments 33-34
The effects of two concentrations of sucrose with 1.5M EG in M2 medium

4.11 Experiment 35
The effect of 20% EG, 1.5M DMSO & 10% human serum in PBS with no sucrose

4.12 Experiment 36
The effect of 0.2M sucrose with 1.5M EG, & 20% human serum in PBS

4.13 Experiment 37
The effect of 0.2M sucrose with 1.5M DMSO, & 20% human serum in EBSS
4.14 Experiments 38-39
The effect of Sperm freeze and embryo freeze 74

4.15 Experiments 40-43
The effects of varying concentrations of sucrose with 1.5 M 1-2 PROH in M$_2$ medium 76

4.16 Control experiment

5 Results 78

5.1 Control experiment (Direct insemination without freezing) 78

5.2 Experiments 1 - 4
The effects of varying concentrations of sucrose with 3.5 M DMSO in M$_2$ medium 79

5.3 Experiments 5-8
The effects of varying concentrations of sucrose with 1.5 M DMSO in M$_2$ medium 80

5.4 Experiments 9 -12
The effects of 43% of varying concentrations of sucrose with 57% of 1.5 M DMSO in M$_2$ medium 81

5.5 Experiments 13-16
The effects of 14% of varying concentrations of sucrose with 28.5% of 1.5 M DMSO, 28.5% of 1.5M EG & 28.5% of 1.5M Glycerol in M$_2$ medium 82

5.6 Experiments 17 -20
The effects of 0.05 M sucrose with varying concentrations of DMSO in M$_2$ medium 83

5.7 Experiments 21-24
The effects of 43% of varying concentrations of sucrose with 57% of 1.5 M glycerol in M$_2$ medium 84
5.8 Experiments 25-28
The effects of 0.2M sucrose with different concentrations of glycerol in M<sub>2</sub> medium 85

5.9 Experiments 29-32
The effects of 43% of varying concentrations of sucrose with 57% of 1.5M EG in M<sub>2</sub> medium 86

5.10 Experiments 33-34
The effects of two concentrations of sucrose with 1.5M EG in M<sub>2</sub> medium 87

5.11 Experiment 35
The effect of 20% EG, 1.5M DMSO & 10% human serum in PBS with no sucrose 87

5.12 Experiment 36
The effect of 0.2M sucrose with 1.5M EG, & 20% human serum in PBS 88

5.13 Experiment 37
The effect of 0.2M sucrose with 1.5M DMSO, & 20% human serum in EBSS 88

5.14 Experiments 38-39
The effect of Sperm Freeze and Embryo Freeze 89

5.15 Experiments 40-43
The effects of varying concentrations of sucrose with 1.5 M 1-2 PROH in M<sub>2</sub> medium 89

6. Discussion 90
7. Conclusions 95
8. Recommendations 96
9. References 97
10. Annexure 108
