Abstract	xix

### PART 1

#### *INTRODUCTION*

#### CHAPTER 1 PURVIEW OF THE STUDY

	Page
1.1 Introduction	1
1.2 Start of tea in Sri Lanka	1
1.2.1 Ownership of tea	2
1.3 Emergence of a tea smallholder Sector	4
1.3.1 Importance of smallholder within the tea sector	5
1.4 Development patterns of the two sectors	8
1.4.1 Yield gap of the two sectors	10
1.5 Common constraints on the smallholder sector	10
1.6 Objectives and hypotheses of the study	14
1.6.1 Extension coverage	16
1.6.2 Utilization of innovations	18
1.6.3 Constraints in adopting innovations in the smallholder sector	19
1.7 Research Design and Methodology	20
1.7.1 Selection of the sample	25
1.8 Computer and statistical procedures used for the analysis	32
1.8.1 Multiple regression analysis	33
1.8.2 Weighted average method	34
1.8.3 Percentages and cross-tabulations	34
1.9 Limitations of the study	34
1.10 Conclusion	35

**PART 2**  
***BACKGROUND TO THE STUDY***

**CHAPTER 2      BACKGROUND INFORMATION**

2.1	General description of Sri Lanka and study locations	37
	2.1.1 Location of Sri Lanka	37
2.2	Agro-ecological zones in Sri Lanka and in study districts	39
2.3	Some geographical Features	42
	2.3.1 Temperature	42
	2.3.2 Rainfall	42
	2.3.3 Soils	43
2.4	Population	44
2.5	Foreign rule	46
2.6	Administration	47
2.7	Land utilization in Sri Lanka	48
	2.7.1 Land utilization in Kandy district	50
	2.7.2 Land utilization in Matara district	51

**CHAPTER 3      HISTORICAL DEVELOPMENT OF THE  
PLANTATION SECTOR IN SRI LANKA**

3.1	Introduction	52
3.2	Pre-plantation sector	53
3.3	Pre-plantation trading links	54
3.4	Early commodity/export economy: cinnamon	55
3.5	Development of the coffee plantations	57
3.6	Post-coffee plantation: tea, coconut, rubber	64
	3.6.1 Tea	65
	3.6.2 Coconut	66
	3.6.3 Rubber	67
3.7	Conclusion	67

## **CHAPTER 4 TEA INDUSTRY IN THE ECONOMY OF SRI LANKA**

4.1	Agricultural sector	69
4.2	Plantation sector	70
4.3	Sri Lankan tea in the world setting	73
	4.3.1 Recent declining productivity in tea sector	75
4.4	Importance of tea to the economy of Sri Lanka	76
4.5	Production and marketing	78
4.6	Recent developments	82
	4.6.1 Land reforms by the Sri Lanka Freedom Party led United National Front Government	82
	4.6.2 Structural changes undertaken by the United National Party Government since 1977	84
	4.6.3 Privatization of estates by the United National Party Government in 1992	86
4.7	Conclusion	88

## **CHAPTER 5 HISTORICAL ANALYSIS OF THE DEVELOPMENT OF AGRICULTURAL RESEARCH AND EXTENSION ACTIVITIES IN SRI LANKA**

5.1	Developments during British rule	90
5.2	Developments since independence	94
5.3	Early research and extension activities for plantation crops	98
5.4	Development of extension services to smallholders	100
5.5	Conclusion	102

## CHAPTER 6 ANALYSIS OF THE INSTITUTIONAL FRAMEWORK OF THE TEA SECTOR

6.1	Introduction	103
6.2	The Sri Lanka Tea Board	103
6.3	Tea Research Institute (TRI)	104
	6.3.1 Extension methods of TRI	108
	6.3.2 TRI services to smallholders	108
6.4	Tea Small Holding Development Authority (TSHDA)	109
	6.4.1 Supply of fertilizer and plants	111
	6.4.2 Management of TSHDA factories	111
	6.4.3 Extension work of TSHDA	112
	6.4.4 TSHDA Farmers' organizations	113
	6.4.5 Maintaining the major subsidy schemes	115
	6.4.6 Integrated Rural Development Projects (IRDP)	117
6.5	CARE - start of various projects in Sri Lanka	117
	6.4.1 Tea Cultivators Assistance Project (TEACUP)	118
6.6	Conclusion	121

### PART 3

#### *LITERATURE REVIEW AND CONCEPTUAL CONSIDERATIONS*

## CHAPTER 7 AGRICULTURAL EXTENSION AND THE SMALL FARMERS WITH REFERENCE TO DIFFUSION AND ADOPTION OF INNOVATIONS AND EXTENSION COVERAGE

7.1	Introduction	122
7.2	Definition of agricultural extension	122
7.3	Early work on diffusion	125
7.4	Innovations	126
7.5	Innovativeness and adopter categories	128
7.6	Conventional diffusion model and the progressive farmer approach	130

7.7	Disadvantages of conventional diffusion model and the progressive farmer approach	135
	7.7.1 System blame approach	139
7.8	Factors affecting the adoption process	141
7.9	Alternative approaches	143
	7.9.1 Commodity approach	145
	7.9.2 Target category approach	146
	7.9.3 Package programme approach	147
7.10	Extension coverage	149
	7.10.1 National coverage versus area coverage	151
	7.10.2 Mass media and communication strategies	151
	7.10.3 Group methods	152
	7.10.4 Removing non-extension work	153
	7.10.5 Linkage between research, extension and farmers	154
	7.10.6 Privatization and cost-effectiveness of extension	154
7.11	Conclusion	157

## CHAPTER 8 DECISION-MAKING AND SMALL FARMERS

8.1	Introduction	159
8.2	Decision-making towards a new technology	160
8.3	Economic dimension of farmer decision-making	165
	8.3.1 Implication of the neo-classical economic theory of farm production	166
	8.3.2 Shortcoming of the neo-classical models of decisions-making	167
	8.3.3 Risk and uncertainty in small farmer decision-making	168
8.4	Decision-making in extension organizations	171
	8.4.1 Organizational structures	172
	8.4.1.1 Kenyan Tea Development Authority (KTDA)	174
	8.4.2 Decentralization issue in extension	175
8.5	Conclusion	177

## CHAPTER 9 MARKETING CONSTRAINTS OF SMALLHOLDERS, AGRICULTURAL MARKETING EXTENSION AND THE ROLE OF FARMER ORGANIZATIONS

9.1	Introduction	179
9.2	Marketing constraints on smallholder agriculture	182
	9.2.1 Role of middlemen	183
	9.2.2 Transport and storage stages	185
9.3	Role of agricultural marketing extension	187
	9.3.1 Intervention through marketing extension	189
9.4	Small farmers' organizations	191
9.5	Conclusion	201

### PART 4

#### *EMPIRICAL EVIDENCE*

## CHAPTER 10 DESCRIPTION OF THE RESEARCH POPULATION BASED ON THE SURVEY DATA

10.1	Introduction	203
10.2	Farmers' background	203
	10.2.1 Age and sex of the farmers	203
	10.2.2 Members of the family	204
	10.2.3 Other employment	206
	10.2.4 Cropping pattern and land tenure in the smallholder sector	207
10.3	Details of the estates	208
10.4	SL and VP tea cultivation	210
	10.4.1 Composition of SL and VP tea	210
	10.4.2 Adoption and diffusion of VP tea	211
	10.4.3 Reasons for different diffusion patterns in the two sectors	214

	10.4.3.1 Capital	214
	10.4.3.2 Knowledge	215
	10.4.3.3 Problems of plant materials	216
10.5	Details about extension workers	217
	10.5.1 Age, qualifications and experience of extension workers	217
	10.5.2 Category of duties and methods of extension contact	218
10.6	Non-extension duties:views of the extension workers	219
10.7	Appropriateness of extension messages	220
	10.7.1 Views of smallholders and extension workers	220
	10.7.1.1 Reasons why the majority smallholders believe messages are not appropriate	221
	10.7.2 Views of estate superintendents	222
10.8	Credits and subsidies to smallholders	224
	10.8.1 Credits	224
	10.8.2 Subsidies	225
10.9	Smallholders' suggestions for better extension	226
10.10	Conclusion	226

## CHAPTER 11 ANALYSIS OF EXTENSION COVERAGE

11.1	Introduction	228
11.2	General extension: smallholder and estate sectors	228
11.2.1	Information and advice	228
11.2.2	Views of smallholders and superintendents about extension services	230
11.2.3	Details of the client visits	231
11.2.4	Priorities of the expected extension services of the farmers	232
11.2.5	Duplication of services	233
11.3	Extension contacts of smallholders and estates	233
11.4	Interaction among extension institutions	237

11.5	Potential yield increase by expanding extension services	238
11.5.1	Role of extension in increasing tea yield in relation to the results of multiple regression and cross-tabulation	249
	11.5.1.1 VP and SL tea	249
	11.5.1.2 Fertilizer application	253
	11.5.1.3 Pruning practice	253
11.6	Categories of smallholders	255
11.7	Conclusion	264

## CHAPTER 12 ANALYSIS OF ADOPTION OF SELECTED INNOVATIONS

12.1	Introduction	266
12.2	Adoption of Fertilizer	266
	12.2.1 Nursery type	268
	12.2.2 Young tea type	269
	12.2.3 Mature tea types	271
	12.2.4 Dolomite	272
	12.2.5 Zinc	272
	12.2.6 Application of natural fertilizer	274
12.3	Weed Control	275
12.4	Plucking	276
12.5	Pruning	278
	12.5.1 Pruning cycle	279
	12.5.2 Height of pruning	280
	12.5.3 Cleaning the base of the plant and applying protective chemicals	282
12.6	Pest and diseases	284
12.7	Conclusion	285

## CHAPTER 13 ANALYSIS OF CONSTRAINTS IN ADOPTION OF INNOVATIONS

13.1	Introduction	288
13.2	Weighted averages used in the analysis	288
13.3	Constraints in adopting fertilizers	289
	13.3.1 Respondents' knowledge about fertilizer recommendations	292
13.4	Constraints in adopting weed control practices	294
13.5	Constraints in controlling pests and diseases	296
13.6	Constraints in plucking	297
13.7	Pruning practices	298
13.8	Overall constraints in adopting innovations	299
13.9	Marketing of green leaf	301
	13.9.1 Role of extension in this specific situation	302
	13.9.2 Disposal of green leaf	303
	13.9.3 Average price	304
	13.9.4 Other charges	304
	13.9.5 Reasons for selling green leaf to middlemen	305
	13.9.6 Marketing constraints and farmer organizations	308
	13.9.7 Agricultural marketing extension	310
13.10	Conclusion	311

## CHAPTER 14 SUMMARY, CONCLUSIONS AND IMPLICATIONS

14.1	Introduction	312
14.2	Contents	312
14.3	Extension coverage	314
14.4	Comparison of adoption of selected innovations	314
14.5	Constraints in adoption of innovations	315
	14.5.1 Lack of capital	315
	14.5.2 Lack of knowledge	316
	14.5.3 Lack of inputs and marketing facilities	317

14.6	Implications of the research	318
14.6.1	Contribution to the body of knowledge of agricultural extension	318
14.6.1.1	System blame approach	318
14.6.1.2	Concept of agricultural marketing extension	319
14.6.1.3	Categorizing farmers	320
14.6.2	Implication for policy changes	320
14.6.2.1	Farmer organizations	321
14.6.2.2	Links between research, extension and farmers and among organizations	322
14.6.2.3	Policy implications towards extension approaches	323
14.6.2.4	Implications on privatization policies	324
14.6.2.5	Policy implications for agricultural marketing extension	325
14.8	Suggestions for future research	326
	References	327
	Appendix	339

## LIST OF TABLES

	Page	
Table 1.1	Tea area ownership categories, 1972	3
Table 1.2	Tea area ownership categories in 1991	4
Table 1.3	Tea: area planted (hectares)	6
Table 1.4	Area under estates and smallholdings in 1955, 1965, 1975 and 1985	7
Table 1.5	Area of estates and smallholdings (in ha)	7
Table 1.6	Number and area of holdings according to size category by district, 1983	9
Table 1.7	Number and area of smallholdings and number of operators by district, 1983	26
Table 1.8	Distribution of the smallholders sample	28
Table 1.9	Distribution of extension workers sample	31
Table 2.1	Land utilization within agricultural holdings according to the Census of Agriculture-1982	49
Table 2.2	Agricultural land use (thousand hectares)	50
Table 3.1	Ceylon coffee industry, acreage and exports ('000cwt) from 1855-1905	62
Table 3.2	Area cultivated by estates and smallholdings from 1881-1981 (hectares)	65
Table 4.1	Sectorial composition of the economy (amount Rs millions)	69
Table 4.2	Contribution of the plantation sector to the GDP from 1982-1992 (Rs millions)	72
Table 4.3	Contribution of each of the crops in the Agriculture sector to the Gross Domestic Product (amount Rs million)	73
Table 4.4	Percentage share of world tea production by countries	74
Table 4.5	Percentage share of world tea exports by countries	75
Table 4.6	Tea: average yield in major producing countries (kg/ha/made tea)	76

Table 4.7	Tea: total production and exports	79
Table 4.8	Sri Lankan tea exports by destination ('000mt)	81
Table 6.1	Advisory and extension services provided by TRI in 1990	106
Table 6.2	Smallholder development societies at the end of 1990	114
Table 10.1	Sex of the farmers	204
Table 10.2	Participation of farming activities by members of the family and others	205
Table 10.3	Details of the estates	209
Table 10.4	Composition of SL and VP tea area	211
Table 10.5	Details of non-extension duties	219
Table 11.1	Expected extension service	232
Table 11.2	Visit frequencies of extension workers of TSHDA to smallholders and TRI extension workers to estates	234
Table 11.3	Relationship between TSHDA extension workers' visit frequencies and GS divisions in the smallholder sector	235
Table 11.4	Distribution of the sample of extension workers among organizations	237
Table 11.5	Smallholder sector	243
Table 11.6	Estate sector	244
Table 11.7	Association between extension workers' visit frequencies with yield	246
Table 11.8	Association between extension workers' visit frequencies and control of pest and diseases by non-chemical methods	247
Table 11.9	Association between extension workers' visit frequencies and fertilizer application	248
Table 11.10	Association between extension workers visit frequencies and dolomite application	249
Table 11.11	Resource scores received by the farmers	256
Table 11.12	Categories of the farmers according to the resource score	257
Table 11.13	Scores regarding adoption of practices	259

Table 11.14	Adopter categories	261
Table 11.15	Association of adopter categories by poor and rich farmers categories	261
Table 11.16	Association of extension workers' visit frequencies and categories of farmers	262
Table 12.1	Type of fertilizer by category of tea in the smallholder sector	273
Table 12.2	Type of fertilizer by category of tea in the estate sector	274
