<b>DECLARATION.....</b>	<b>I</b>
<b>ACKNOWLEDGEMENT.....</b>	<b>II</b>
<b>DEDICATION.....</b>	<b>III</b>
<b>TABLE OF CONTENTS.....</b>	<b>IV</b>
<b>ABBREVIATIONS AND INTERPRETATIONS.....</b>	<b>VII</b>
<b>LIST OF TABLES.....</b>	<b>VIII</b>
<b>LIST OF FIGURES.....</b>	<b>IX</b>
<b>LIST OF PLATES.....</b>	<b>X</b>
<b>ABSTRACT .....</b>	<b>XI</b>

### **CHAPTER ONE: INTRODUCTION**

1.1 Economic and social impact of the papaya crop.....	2
1.2 Papaya cultivation and fertilizer application.....	2
1.3 Nutrient management on papaya plant.....	3
1.3.1 Current nutrient management practices on papaya cultivation by Sri Lankan farmers.....	6
1.4 Problem statement.....	7
1.5 Objectives .....	8

### **CHAPTER TWO: REVIEW OF LITERATURE**

2.1 Basic description on papaya.....	9
2.1.1 Origin.....	9
2.1.2 Morphology and taxonomy.....	10
2.1.3 Distribution.....	10
2.1.4 Production.....	11
2.1.5 Nutrition value of papaya.....	12
2.2 Botanical description of papaya.....	13
2.2.1 Plant.....	13
2.2.2 Growth and development.....	14
2.2.2.1 Vegetative growth.....	15
2.2.2.2 Reproductive growth.....	15
2.2.3 Fruits.....	16

2.2.4	Cultivars.....	16
2.3	Cultivated papaya varieties in Sri Lanka.....	17
2.3.1	Rathna.....	17
2.3.2	Red lady.....	17
2.3.3	Known You Number One.....	18
2.3.4	Sun rise.....	18
2.3.5	Solo hawai.....	18
2.4	Uses of the Plant.....	18
2.5	Cultural practices on papaya.....	19
2.5.1	Topography.....	19
2.5.2	Soil.....	20
2.5.3	Planting papaya.....	20
2.5.4	Spacing.....	20
2.5.5	Irrigation.....	20
2.5.6	Fertilizer application.....	21
2.5.6.1	Soil improvement and fixing nutritional deficiencies.	21
2.5.6.2	Fertilizer recommendation in Sri Lanka.....	21
2.5.7	Pruning.....	23
2.5.8	Propagation.....	23
2.5.9	Yields.....	23
2.6	Suggested IPNS program for papaya in Sri Lanka.....	24

**CHAPTER THREE:           METHODS AND MATERIALS**

3.1	Location of experiment.....	25
3.2	Materials .....	25
3.3	Experimental design and layout .....	26
3.4	Crop establishment and management practices.....	27
3.4.1	Land preparation and establishment of crop.....	27
3.4.2	Fertilizer application.....	27
3.4.3	Irrigation.....	30
3.4.5	Pest and disease control.....	30
3.5	Data collection.....	31
3.5.1	Estimation of total soluble solids.....	31

3.6 Statistical analysis.....	32
-------------------------------	----

## **CHAPTER FOUR: RESULTS AND DISCUSSION**

4.1 Effect of different fertilizer packages on growth parameters.....	33
4.1.1 Performances of plant height with different treatments ... ..	34
4.1.2 Girth of the stem.....	35
4.1.3 Performances of number of leaves in different treatments .....	36
4.1.4 Performances of canopy width in different treatments .....	37
4.2 General discussion on growth parameters.....	38
4.3 Time taken to first flowering.....	41
4.4 Height at first flowering .....	42
4.5 Fruit yield per plant.....	43
4.5.1 Number of fruits per plant.....	44
4.5.2 Single fruit weight.....	45
4.6 Fruit characters.....	46
4.6.1 Pulp thickness.....	46
4.6.2 Brix value.....	47
4.7 Cost of fertilizer.....	48
4.8 Profit analysis.....	49
4.9 General discussion on yield and quality of red lady papaya .....	51

## **CHAPTER FIVE: CONCLUSIONS AND SUGGESTIONS**

5.1 Conclusions .....	56
5.2 Future suggestions.....	57

## **REFERENCES**

## ABBREVIATIONS AND INTERPRETATIONS

CEC	- Cation Exchange Capacity
DOA	- Department Of Agriculture
FW	- Fresh Weight
FYM	- Farm Yard Manure
IPNS	- Intergrated Plant Nutrition System
MAP	- Months After Planting
MOP	- Muriate Of Potash
NPK	- Nitrogen, Phosperous, Pottassium
RCBD	- Randomized Completely Block Design
RDF	- Recommended Dose Fertilizer
RDN	- Recommended Dose Nitrogen
RF	- Recommended Fertilizer
TSP	- Triple Super Phosphate
TSS	- Total Soluble Solid

## LIST OF TABLES

Table 1: Nutrient uptake by whole plant of papaya cv. CO 1 (kg/ha/dry weight basis).....	4
Table 2: Major nutrients, their role, deficiency symptoms and effect of excess usage.....	5
Table 3: Papaw extent (Hectares) & production (000 Number) - Year 2000/2001 to 2012/2013.....	7
Table 4: Papaw extent (Hectares) & production (Mt) – year 2011 to 2014.....	8
Table 5: The general fertilizer recommendation for papaya varieties .....	22
Table 6: Suggested IPNS program for papaya in Sri Lanka .....	24
Table 7: The general percentage of major nutrient content of each fertilizer.....	26
Table 8: Layout of the treatments .....	26
Table 9: Basal dressing of the plant (g/plant).....	28
Table 10: Fertilizer amount of 2 MAP (g/plant).....	28
Table 11: Fertilizer amount of 4 MAP (g/plant).....	29
Table 12: Fertilizer amount of 6 MAP (g/plant).....	29
Table 13: Fertilizer amount of 8 MAP (g/plant).....	30
Table 14: Probabilities of growth parameters with the different treatments in each month at significance level $\alpha = 0.05$ .....	33
Table 15: Height of papaya plants at 6, 7 and 8 MAP.....	34
Table 16: Stem girth of papaya plants at 5, and 6 MAP in different treatments .....	35
Table 17: Number of leaves per papaya plant at 7, and 8 MAP.....	36
Table 18: Maximum canopy width of papaya plant at 5, 6, 7, and 8 MAP.....	37
Table 19: The summary of the fertilizer packages on growth parameters .....	38
Table 20: Cost of fertilizer for treatments during the study period.....	48
Table 21: Cost of cultivation for Red lady papaya in 1 ha per year (Without fertilizer cost) .....	49
Table 22: Economic aspects for the first year of papaya cultivation .....	50
Table 23: Comparison of yield, number of fruits and single fruit weight during the study period .....	51

## LIST OF FIGURES

Figure 1:	Major producing countries of papaya .....	1
Figure 2:	Papaya production by geographic area, 2008–2010 .....	12
Figure 3:	Taking time to first flowering due to using different fertilizer packages.....	41
Figure 4:	Height at first flowering in different fertilizer packages.....	42
Figure 5:	Average yield per plant observed for the study period .....	43
Figure 6:	Number of fruits per plant observed in the study period .....	44
Figure 7:	Average weight per fruit with the treatments .....	45
Figure 8:	Pulp thickness of the fruit with the treatments.....	46
Figure 9:	Brix value of the fruit with the treatments .....	47

## LIST OF PLATES

Plate 1: Typical pawpaw “Maradol” variety .....	9
Plate 2: Pawpaw “Maradol” variety % composition .....	10
Plate 3: “Red Lady” hybrid variety .....	10
Plate 4: A “Red Lady” papaya tree .....	13
Plate 5: Flower types of papaya .....	14
Plate 6: Seedlings covered by white polythene to prevent wild animals’ attack .....	30
