

TABLE OF CONTENTS

ACKNOWLEDGEMENT	I
TABLE OF CONTENTS.....	II
LIST OF FIGURES	VI
LIST OF TABLES	VII
LIST OF PLATES.....	VIII
ABBREVIATIONS AND INTERPRETATIONS	IX
ABSTRACT	1
CHAPTER 01	2
GENERAL INTRODUCTION	2
CHAPTER 02	5
GENERAL LITERATURE REVIEW	5
2.1 RICE	5
2.2 SRI LANKAN TRADITIONAL RICE.....	6
2.3 RICE PRODUCTION IN SRI LANKA	6
2.4 FERTILIZER USAGE FOR RICE CULTIVATION	6
2.5 PROBLEMS OF FERTILIZER USAGE	8
2.5.1 Nitrate pollution.....	8
2.5.2 Health	8
2.6 FERTILIZER	9
2.6.1 Role to improve plant growth and yield.....	9
2.6.2 Types of nitrogen fertilizer.....	9
2.6.3 Urea production process.....	9
2.7 BIOLOGICAL NITROGEN FIXATION	11
2.7.1 Rhizobia symbiosis.....	11
2.7.2 Endophytic bacteria.....	12
2.7.3 Biological nitrogen fixation process	15
2.7.3 Benefits of using Biological nitrogen fixation.....	15
2.8 ROLES AND APPLICATIONS OF ENDOPHYTES	16
2.8.1 Phyto - stimulation.....	16
2.8.2 Antimicrobial activity	17
2.8.3 Enhanced pest control.....	18
2.9 PLANT GROWTH PROMOTING BACTERIA	18
2.10 HETEROSIS	20
2.10.1 Hybrid seed production.....	20

CHAPTER 03	21
EFFECT OF <i>BRADYRHIZOBIUM</i> (ORS 278) ON SELECTED SRI LANKAN IMPROVED, TRADITIONAL AND WILD RICE UNDER <i>IN VITRO</i> AND GREENHOUSE CONDITION..	21
3.1 INTRODUCTION	21
3.2 MATERIALS AND METHODS	22
3.2.1 <i>Location and period of study</i>	22
3.2.2. <i>Inoculum</i>	22
3.2.3. <i>Rice genotypes and inoculation</i>	23
3.2.3.1. Experiment - 1	23
3.2.3.2. Experiment - 2	24
3.2.4. <i>Data collection</i>	25
3.2.4.1. Determination of total chlorophyll content	25
3.2.4.2. Plant height measurement for experiment - 1	25
3.2.4.3. Yield measurements for experiment - 2	25
3.2.5. <i>Statistical methods</i>	26
3.3. RESULTS AND DISCUSSION	27
3.3.1. <i>Experiment – 1</i>	27
3.3.1.1 Effect of <i>Bradyrhizobium</i> (ORS 278) inoculation on selected Sri Lankan wild, traditional and improved rice accessions	27
3.3.2. <i>Experiment - 2</i>	29
3.3.2.1. The effect of <i>Bradyrhizobium</i> (ORS 278) on growth and yield performance of improved rice (At 308)	29
3.3.2.2. Inoculation effect of <i>Bradyrhizobium</i> on growth and yield performance of Sri Lankan traditional rice <i>Ma wee</i>	32
3.5. CONCLUSION	34
CHAPTER 04	35
MORPHOLOGICAL AND MOLECULAR CHARACTERIZATION OF SELECTED ENDOPHYTIC BACTERIA ISOLATED FROM SRI LANKAN WILD RICE AND WEEDY LEGUMES.....	35
4.1 INTRODUCTION	35
4.2 MATERIAL AND METHODS	36
4.2.1 <i>Location and period of study</i>	36
4.2.2. <i>Isolation of endophytic bacteria from Sri Lankan wild rice</i>	36
4.2.3. <i>Isolation of endophytic bacteria from legume weeds</i>	37
4.2.4. <i>Tests of morphological characterization</i>	37
4.2.5. <i>Tests of molecular characterization</i>	38
4.2.6. <i>Data collection</i>	40
4.3. RESULTS AND DISCUSSION	40
4.4. CONCLUSION	44

CHAPTER 05	45
IN VITRO SCREENING OF BRADYRHIZOBIUM AND BACILLUS MEGATERIAM FOR THEIR PLANT GROWTH PROMOTING (PGPR) ACTIVITIES.....	45
5.1 INTRODUCTION	45
5.2. MATERIAL AND METHODS	46
5.2.1. Location and period of study	46
5.2.2. Acid or alkaline production and survival ability in N-free media.....	46
5.2.3. Phosphate solubilization	46
5.2.4. Enzyme activity	47
5.2.5. Indole acetic acid (IAA) production.....	47
5.2.6. Antifungal activity.....	47
5.2.7. Movement.....	48
5.3. RESULTS AND DISCUSSION.....	48
5.3.1 Acid or alkaline production and survival ability in N-free media	48
5.3.2. Phosphate solubilization.....	48
5.3.3. Enzyme activity	48
5.3.4. Indole acetic acid (IAA) production.....	48
5.3.5. Antifungal activity.....	49
5.3.6. Movement.....	49
5.4 CONCLUSION	52
CHAPTER 06	53
THE EFFECT OF SOME PLANT ASSOCIATED LOCAL BACTERIA ON SELECTED SRI LANKAN RICE UNDER GREENHOUSE CONDITIONS.....	53
6.1 INTRODUCTION	53
6.2 MATERIAL AND METHODS	54
6.2.1. Location and period of study	54
6.2.2. Experiments	54
6.2.3. Bacterial strains and culture growth conditions.....	55
6.2.4. Rice genotypes and inoculation	55
6.2.5. Plant growth conditions.....	55
6.2.6. Data collection.....	56
6.2.6.1. Yield measurements	56
6.2.7. Statistical methods	56
6.3. RESULTS AND DISCUSSION.....	57
6.3.1 Inoculation effect of endophytic bacterium (<i>Bacillus megaterium</i>) on Sri Lankan traditional rice variety Ma wee (3551).....	57
6.3.2 Inoculation effect of endophytic bacterium (<i>Bacillus megaterium</i>) on Sri Lankan improved rice (<i>Ld 365</i>)	58

6.3.3 Inoculation effect of <i>Oryza rhizomatis</i> isolate on growth and yield performance of Sri Lankan traditional rice 'Rath heenati (3390).....	59
6.3.4 Inoculation effect of <i>Oryza rhizomatis</i> isolate on growth and yield performance of Sri Lankan improved rice (Ld 365)	60
6.3.5 Inoculation Effect of <i>Aeschyenomene americana</i> isolate on growth and yield performance of Sri Lankan improved rice (Ld 365).....	61
6.5 CONCLUSION	62
7. GENERAL CONCLUSION	63
8. REFERENCE	65
ANNEX:	75

LIST OF FIGURES

Figure 2. 1: Rice production and fertilizer usage	7
Figure 2. 2: Schematic diagram of urea production	10
Figure 2. 3: Schematic diagram of the different plant–bacterial endophyte interactions and their applications	14
Figure 2. 4: Hybrid seed production	20
Figure 3. 1: Effect of <i>Bradyrhizobium</i> (ORS 278) inoculation on selected Sri Lankan wild, traditional and improved rice accessions.....	28
Figure 3. 2: Growth performance of <i>Ma wee</i> (5523) and Bw 278/2 and their heterosis	29
Figure 3. 3: Growth and yield performance of Sri Lankan improved rice (At 308) under greenhouse condition	31
Figure 3. 4: Growth and yield performance of Sri Lankan traditional rice <i>Ma wee</i> under greenhouse condition	33
Figure 4. 1: Colony morphology variation of 44 isolates on AG media.....	40
Figure 5. 1: Phosphate solubilizing and growth performance of N- free media of <i>Bradyrhizobium</i> and <i>Bacillus megaterium</i>	51
Figure 6. 1: Inoculation effect of <i>Bacillus megaterium</i> on Sri Lankan traditional rice <i>Ma wee</i>	57
Figure 6. 2: Inoculation effect of <i>Bacillus megaterium</i> on Sri Lankan improved rice (Ld 365) without nitrogen fertilizer	58
Figure 6. 3: Inoculation effect of <i>Oryza rhizomatis</i> isolate on Sri Lankan traditional rice <i>Rathheenati</i> without nitrogen fertilizer	59
Figure 6. 4: Inoculation effect of <i>Oryza rhizomatis</i> isolate on Sri Lankan improved rice (Ld 365) without nitrogen fertilizer	60
Figure 6. 5: Inoculation effect of <i>Aeschyenomene americana</i> isolate on Sri Lankan improved rice (Ld 365) without nitrogen fertilizer.....	61

LIST OF TABLES

Table 3. 1: Inoculated varieties and accessions of rice used for experiment -1	23
Table 3. 2: Treatment applications for experiment - 2	25
Table 4. 1: Isolated bacteria colonies with locations,	42
Table 4. 2: Reference 16S rRNA sequencing bacteria colonies	43
Table 5. 1: Summary of plant growth promoting activities of <i>Bardyrhizobium</i> (ORS 278), <i>Bacillus megaterium</i> and <i>Bacillus cereus</i> under <i>in- vitro</i> condition	49
Table 6. 1: Treatment applications for experiments	56

LIST OF PLATES

Plate 4. 1: Colour development of selected bacterial strains.	41
Plate 5. 1: Detection of plant growth promoting activities of <i>Bradyrhizobium</i> (ORS 278)	50
Plate 5. 2: Antifungal activities of selected strains.....	51
