

UNIVERSITY OF RUHUNA
BACHELOR OF SCIENCE IN FISHERIES AND MARINE SCIENCES DEGREE

Level IV Semester I Examination

July 2015

LIM 4132 Water Resource Management

Time: 01 ½ hours

Answer all questions.

1. A plot between rainfall intensity versus time is called:

- i. Mass curve
- ii. Isohyte
- iii. Hyetograph
- iv. Rainfall duration curve
- v. Hydrograph

2. Hydrologic flood routing methods use

- i. Continuity equation
- ii. Energy equation only
- iii. Continuity equation and storage
- iv. Continuity equation and momentum equation
- v. Momentum equation and storage

3. The storage constant K in the Muskingum equation is the ratio of

- i. Storage to discharge
- ii. Discharge to storage
- iii. Storage to time
- iv. Inflow to outflow
- v. Outflow to inflow

4. A hydraulic structure is designated for T year frequency flood and has an estimated life of N years. The probability that the structure will not fail during its life period is given by:

- i. $\left(1 - \frac{1}{T}\right)^N$
- ii. $\left(1 - \frac{1}{T}\right)$
- iii. $\left(1 - \frac{1}{N}\right)^T$
- iv. $\left(T - \frac{1}{N}\right)$
- v. $1 - \left(1 - \frac{1}{T}\right)^N$

5. The probability that a T year frequency flood occurs in any given year is:

- i. $\frac{1}{T}$ ii. $\frac{100}{T}$ iii. $\frac{1}{\log T}$ iv. $\log_e T$ v. e^{-T}

Part II (35 marks)

Write your answer only within the provided space

1. What is meant by *frequency* of an event ? Write steps of drawing maximum depth duration frequency curve?

.....

.....

.....

.....

2. What is meant by 'River Flood Routing'?

.....

.....

.....

.....

3. What are the two main types of flood routing techniques?

- i.
- ii.

4. Write three negative impacts of dams that are being built across rivers.

- i.
- ii.
- iii.

5. Define following terms in relation to natural disasters

i. Hazard :.....
.....
.....

ii. Vulnerability.....
.....
.....

iii. Resilience: :.....
.....
.....

6. Define the term 'risk' and indicate its relation to hazard and vulnerability.

i. Definition of Risk
.....
.....

ii. Relationship between risk, hazard and vulnerability:
.....
.....
.....

7. Name two International Agreements or Conventions ratified by the United Nations on freshwater

i.
ii.

8. Define the term 'Drought' and write four types of droughts

i. Definition of Drought

.....

.....

ii. Types of Droughts

- (a)
- (b)
- (c)
- (d)

9. Write three different indices used to measure the severity of drought.

- i.
- ii.
- iii.

10. Define yield-reliability curve and its importance in storing water.

.....

.....

.....

.....

.....

Blank lined paper with horizontal dotted lines for writing.
