SEQ paper- Part B

May 2016

Duration: Half (½) hour

Index Number

1.

1.1.1 List two (2) risk factors for neonatal sepsis (10 marks)

.....
.....
.....

1.1.2 List two (2) features to diagnose respiratory distress in newborn (10 marks)

.....
.....
.....

1.1.3 Low birth weight infants are at risk of hypothermia .Give two (2) reasons for this (20 marks)

.....
.....
.....
.....
.....
.....

1.1.4 Low birth weight infants are at risk of hypoglycemia. Give two (2) reasons for this (20 marks)

.....

.....

.....

.....

.....

.....

1.1.5 What is the concentration and dose of dextrose to treat hypoglycemia in newborn? (10 marks)

.....

.....

.....

1.2.1 List three (3) indices measured to assess growth in infants (15 marks)

.....

.....

.....

.....

1.2.2 What three (3) important factors determine longitudinal growth in children between 2-10 years of age? (15 marks)

.....

.....

.....

.....
